Professional Training

**Partner with Visual Storytellers for an Exclusive Creative Dialog:
Open your Mind and Get Inspired!**

Animation directors meet documentarists to maximize their artistic capacity - for projects in development, creative research and for forming new collaborations.

Through a series of professional seminars, Animated Documentary Anidox Lab will offer selected documentary and animation filmmakers the opportunity to engage and combine their two worlds. It will include both a time-based cinematic approach, as well as digital platforms that allow for multiple story and timelines. The resulting seminars and collaborative workshops will be conducted in English. They are designed to progress from free-forming an initial idea, through narrative development, to pitching scenarios in professional settings. SPH/DOX FORUM 7-17 November 2013.
